

HEALTH SAFETY ENVIRONMENT POLICY

HEALTH, SAFETY AND ENVIRONMENT MANAGEMENT SYSTEM MANUAL

[ISO 14001:2015 & ISO 45001:2018]

“At HAH, we are committed to helping our employees, our subcontractors and our clients remain safe and healthy and to the prevention of injury and illness. We are committed to providing our people with the time and resources they need to be healthy, safe and environmentally responsible”.

We shall strive to achieve these by:

- Providing and maintaining a safe, healthy work environment;
- Minimizing environmental impacts and optimizing the utilization of resources where we are able;
- Meeting or exceeding relevant occupational health and safety and environmental legislation;
- Providing appropriate HSE training and supervision to enable employees to recognize and control hazards;
- Providing employees with written instructions and personal protective equipment;
- regularly inspecting our offices, workshop to identify and control hazardous conditions and practices;
- Regularly communicating HSE issues with employees and interested parties and involving them in the development of initiatives;
- Promptly investigating HSE incidents to identify causes and take appropriate corrective actions; and
- Regularly auditing our HSE Management Systems against established standards to promote continuous improvement.

This HSE policy is communicated to all the employees in the organization by displaying it at strategic locations and briefing them on the policy's intent. The policy is reviewed for continuing suitability during periodic MRM
